

Borgå nya busslinjenät 2024

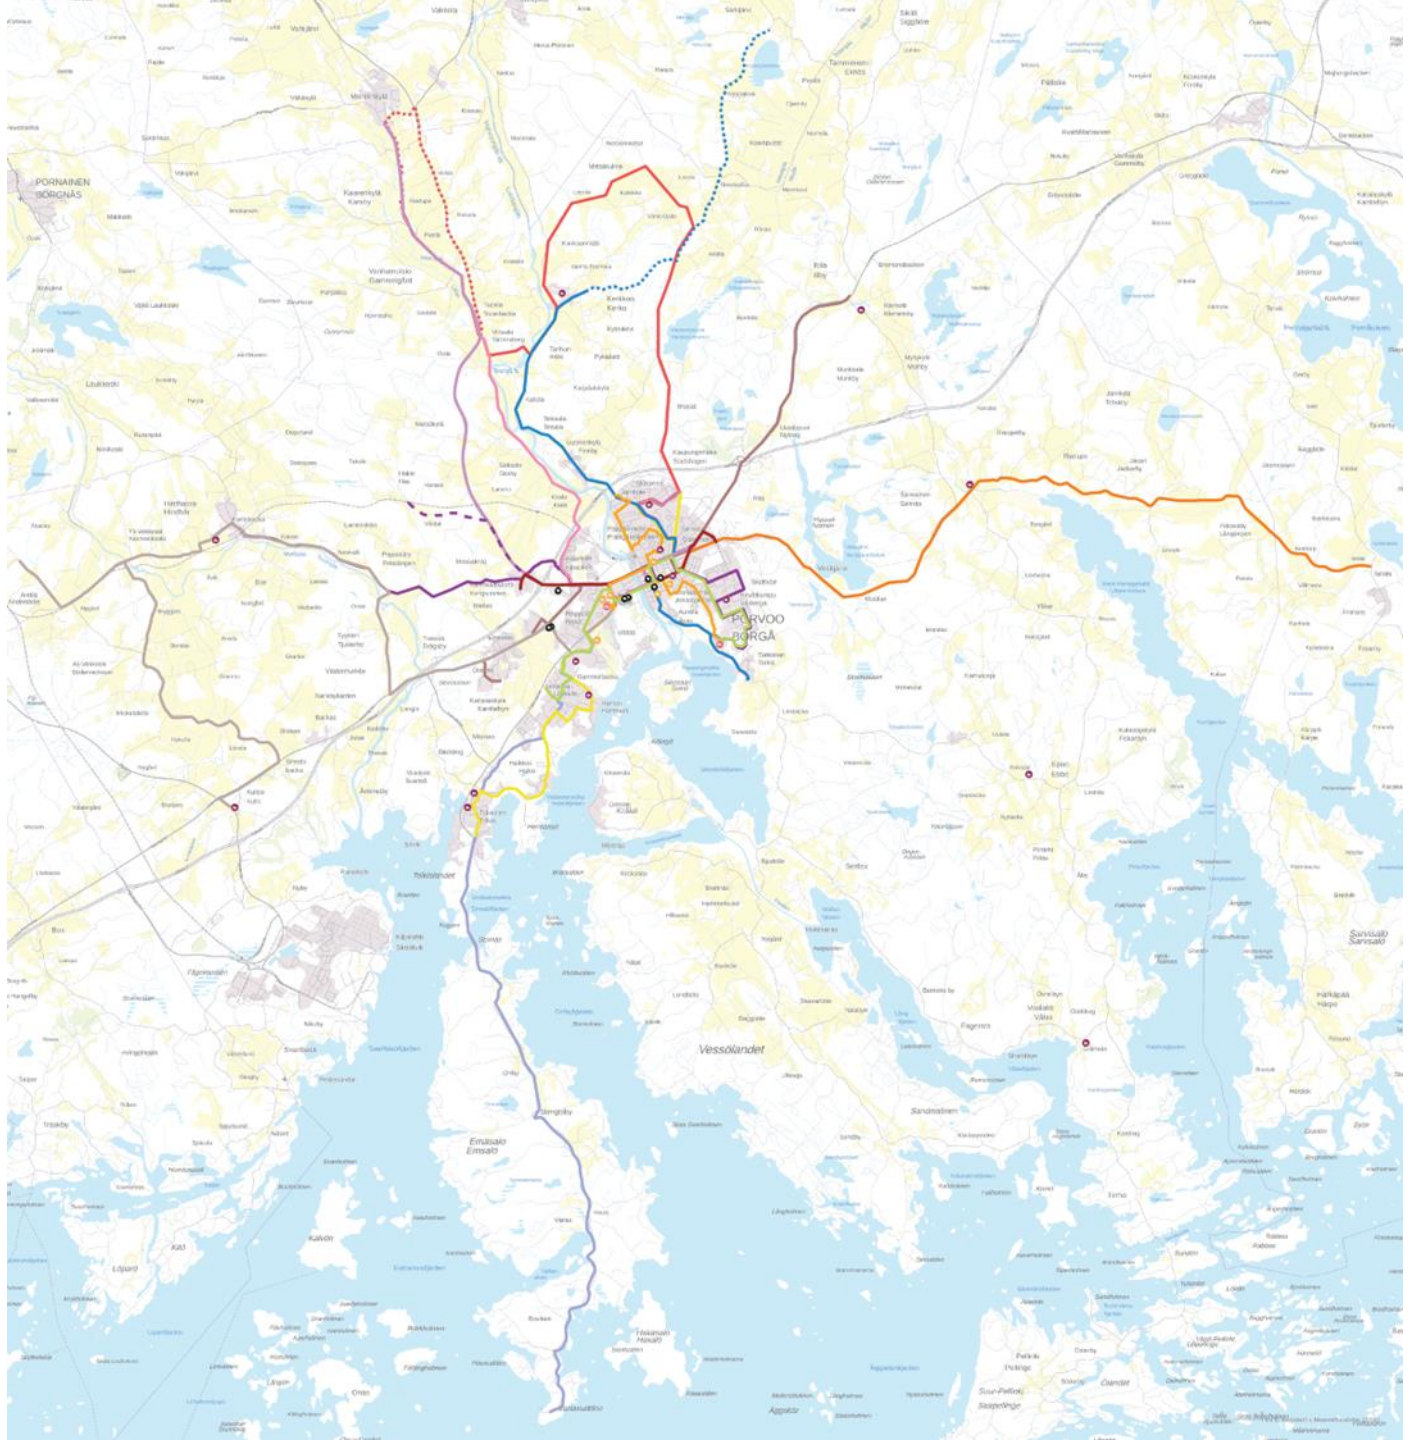

Materialet presenterar busslinjer och tidtabeller. Tidtabellerna är för vintersäsongen från höst till vår. Målet är att påbörja det nya busslinjenätets busstrafik 2024-2025.

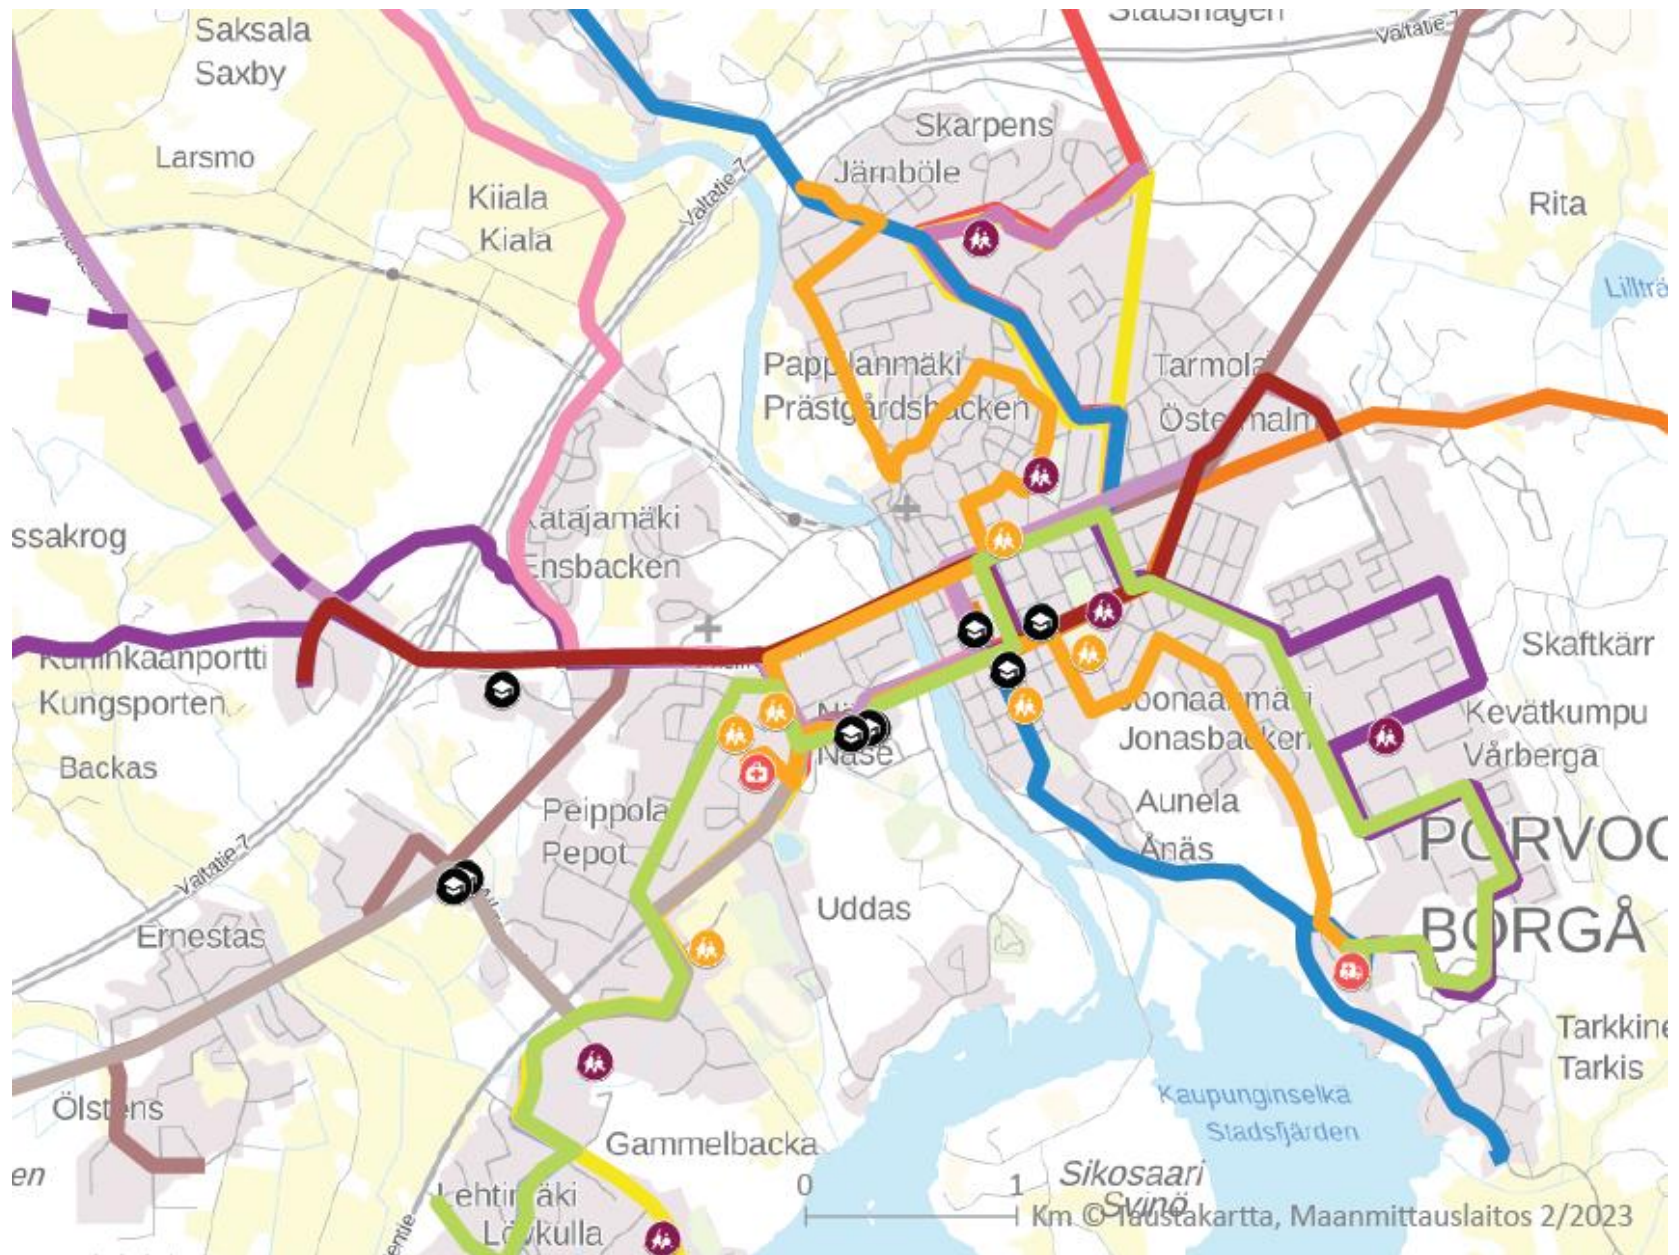

Flera linjer betjänar en del av de tätaste bebodda områdena. Utkastet innehåller inte anropsstyrd trafik, servicetrafik eller beställningstrafik för skolelever utan endast kollektivtrafik som kör regelbundna rutter enligt tidtabeller. Förutom de linjer som presenteras här kompletteras utbudet av den kommungränsöverskridande och för alla öppna NTM-trafiken samt den marknadsstyrda kollektivtrafiken exempelvis till Helsingfors. Deras rutter och tidtabeller behandlas inte i denna enkät.

Avsikten är att servicen under vardagarnas tystare tid och lördagstrafiken ska kompletteras med beställningstrafik utöver de linjer som planerats i detta utkast.

Detta utkast till linjenät gäller inte den tidtabellsenliga trafiken i riktning Sondby, Tirmo, Vålox och Ebbo. Målet är dock att utvidga beställningstrafiken till att även betjäna dessa områden på kvällar och lördagar. I enkäten behandlas inte heller Sköldviks arbetsresetrafik.

Utkastet har 14 linjer, som är hittills numrerade i utkastet med koderna 1, 2, 3, 5, 7, 11, 12, 13, 14, 15, 16, 17, 18 och 19.
